Leslie Smith Wants to See You

He wants to show you Plastergon Wallboard and prove to you that for walls and ceilings nothing yet invented can compare with it.

It makes no difference whether you are building a mansion, a small home, a cottage or garage, you surely ought to Plastergon before you go further.

Perhaps you are preparing to remodel some rooms or put a lovely extra reom in the attic-you can do it with Plastergon and do it better, cheaper and quicker than with old-fashioned lath and plaster. You must see Plastergon before you can realize what a really wonderful wallboard it is-once on, it is on to stay; it never wears out, cracks or breaks.

Anyone can put it on; it is moisture proof, fire and sound retarding. It is the only treated wallboard

use. It resists heat and cold, which means that your rooms will be colder in summer and warmer (saving coal bills) in winter.

Plastergon is furnished in panels of just the proper size to suit requirements. With it the most handsome designs can easily be arranged to suit parlor, library, living-room, dining room or bedroom.

As an interior finish for garages, offices, factories or restaurants, it is economical and appropriate.

See LESLIE SMITH about Plastergon, the guaranteed wallboard, the first chance you get. He will tell you that the Plasergon Wall Board Company of Tonawanda, N. Y., have a Service Department that will gladly furnish you, without cost, a complete panel design and estimate for your requirements. Sam-ple of Plastergon furnished on request. VERNON
